TECHNICAL DATA SHEET

EXTERIOR PUTTY

DESCRIPTION

City Paints Exterior Putty Powder is a cement-based filler designed for repairing cracks, holes, and gaps in exterior rendering, brick, stone, wood, and most building materials. It is easy to mix, simple to apply, non-shrinking, non-cracking, and offers excellent adhesion. Suitable for general repairs and for setting non-structural bolts.

DIRECTIONS

Preparation

- Ensure surfaces are clean, dry, and dust-free
- Remove loose material from cracks or holes
- Moisten absorbent surfaces
- Touch nail heads with oil-based paint to prevent rust

Mixing

- Mix only the amount usable within **60 minutes**
- Ratio: **2.5 parts powder: 1-part cold water**
- Mix until smooth in a clean container

Application

- Press filler firmly into the repair area
- Remove excess material
- Fill deep holes in stages
- Smooth using a wet knife, scraper, or trowel
- Do not apply thinly over large areas
- Avoid use in frost or freezing conditions

Finish

- Allow to set overnight
- Can be left unpainted
- If painting, apply an **oil-based paint first** before any other coating
- Dries grey

CLEANING & STORAGE

- Clean tools and mixing bowls with warm water before filler sets
- Store in a dry place with the sachet tightly closed
